E-118S	60" x 42" x 19"

WHY JETTA

Every Jetta tub is manufactured with extra tough, exceptionally attractive acrylic. It's non porous surface means it won't dull or fade, even after years of cleaning. Plus, Jetta adds two layers of fiberglass backing, minimizing on-site breakage so you'll have fewer delays and less repair costs.

WHY THE LOFT?

Every Jetta Loft is American made with non-porous cast acrylic. Each tub is easy to install and will not chip or crack as easy as steel tubs, saving you money in the long run.

DURABLE

Cast acrylic is stronger than fiberglass or steel. The Loft is UV-resistant and will not dull or fade over time.

EASY TO INSTALL

The Jetta Loft is lighter and easier to move around during installation.

NO SECOND TRIPS

Resistant to cracking or chipping, you will not need to repair this tub after installation.

A Product In Only As Great As The Service Behind it

When you order a Jetta product, you can be assured it will be delivered on time and service won't end with the sale.

Jetta Advantage warrants, to the original purchaser only, that its bath units are free from defect in material and workmanship for 10 years.
