For more than 35 years, Jetta's emphasis on delivering a superior bathing experience has made us a trusted industry leader. From our expertise in hydrotherapy systems backed by our exclusive Stay Hot Guarantee, to our various styles of soaking tubs, we are the premier brand ready to transform your bathroom into a personal oasis for the ultimate at-home spa experience.

CLASSIC, DESIGNER & ELITE

JETTA'S SIGNATURE LINE

Classic, Designer, and Elite is where it all started at Jetta. With four hydrotherapy options spanning the lines, our signature whirlpool technology with our exclusive Stay Hot Guarantee separates us from the other tub manufacturers. Let us show you why we're the hydrotherapy experts.

HYDROTHERAPY

Whether your bathtub is a sanctuary of tranquility, a place for healing or simply a part of your standard daily routine, you deserve the best. **YOU DESERVE JETTA.**

JETTASOAK

A therapeutic soak will leave your body and mind feeling refreshed and cleansed. Available in all of Jetta's product lines, this timeless hydrotherapy will renew and rejuvenate as you immerse yourself in the Jetta spa escape.

JETTAWHIRL

Whirlpool hydrotherapy works deep in your body's tissues, relieving tight and sore muscles while promoting rejuvenation. Treat your back, shoulders, hips, legs and feet to strategic jet placement tailored to your relaxation preference. To customize your spa experience, select from rotating back jets or Jetta's exclusive directional jets.

JETTAIR

The soothing experience of bathing in effervescent air bubbles calms the mind, relaxes nerves and quiets the entire body. Balanced air flow throughout maintains even pressure in all injectors, providing a supremely spa-like bathing experience with multiple modes to suit your every mood.

COMBO HYDROTHERAPY

Recharge with dual hydrotherapy sensations as we combine JettaWhirl and JettaAir into a single spa experience. Their fusion provides a distinct bathing sensation when the relaxing whirlpool jet action merges with invigorating bubbles in the air bath.

STAY HOT GUARANTEE

Delight in the coziness of Jetta's exclusive warm water promise. Our Stay Hot Guarantee is designed to draw the maximum amount of heat from the foam insulated JettaWhirl system and transfer it back into your bath water. The result is a stable bathing temperature that can actually rise from one to three degrees while luxuriating in your at-home spa experience.

Jetta guarantees that the water in our insulated whirlpool baths will stay within 2 degrees of its original fill temperature for 30 minutes of use without an in-line heater.

ELITE SERIES

JETTAWHIRL

COMBO HYDROTHERAPY

Our Elite series offers the ultimate relaxation experience. This sophisticated collection offers true hydrotherapy in an extensive array of shapes and sizes with spacious bathing wells and strategic jet placement. Elite baths include air injectors, up to 28 hydrotherapy jets, 3-6 BHP pumps, and dual tri-ssage controls. Elite baths are truly designed for the ultimate back massage. Jetta's Combo Hydrotherapy mixes the effervescent air bubbles from the JettAir system with the rotating and flow-adjustable jets from the JettaWhirl system.

DESIGNER SERIES

JETTAWHIRL

COMBO HYDROTHERAPY

Our Designer series offers versatility and functionality with its elegant, spacious designs. Designer baths feature the reliable engineering of a 2 BHP pump, a tri-ssage control, air injectors, and 7 to 10 strategically placed hydrotherapy jets. Designer series baths are crafted to focus on specific areas of stress and discomfort for maximum relaxation. Jetta's Combo Hydrotherapy mixes the effervescent air bubbles from the JettAir system with the rotating and flow-adjustable jets from the JettaWhirl system.

CLASSIC SERIES

JETTASOAK

JETTAWHIRL

JETTAIR

COMBO HYDROTHERAPY

Our Classic series baths offer maximum relaxation, traditional styling, and the same high standards and quality found in all Jetta products. This beautiful collection offers all four hydrotherapy options. Classic offers JettAir only bath system which features air injectors around the perimeter, along the arm rests, and in a V shape on the backrest. JettaWhirl system tubs have 5 to 8 hydrotherapy jets, a 1.5 BHP pump, and is available in a variety of styles, sizes, and colors. Enjoy the rich experience for less.

JET PACKAGES

Jetta Elite and Designer series back jets can be focused in one direction for intense whirlpool hydrotherapy or set to rotate in a circle to cover more area of your back. All jets can be fully opened for 100% power or turned down for a gentler water flow. As an added benefit, all jets are removable for easy cleaning.

JETTA AIR

COMBO HYDROTHERAPY

Jetta Air-therapy injects thousands of effervescent air bubbles into the water to massage your body and create an invigorating bathing experience.

- Air injectors are strategically placed around the tub to target all areas of your body.
- Tune your air massaging pressure to fit your unique needs by utilizing Jetta's variable speed blower.
- Customize your spa experience by choosing 3 different air modes: continuous, pulse, or wave.
- Jetta Air system includes a mood light installed in the tub to create a spa like ambiance.
- Upgrade your light package to a multi-color LED for your personal oasis.
- Automatic purge cycle cleans water from the system after use to keep the system clean.

SKIRTED OPTIONS

Most of Jetta's rectangular baths can be purchased with an optional removable skirt. Select Jetta baths can be purchased with an integral skirt that includes a molded tile flange and a two-panel access design. The skirt is fully molded with the bath unit for a solid, one-piece construction that allows for easy access to the pump.
